Intro: /: Em G / Am D :/

Em

How can I thank You for the way that You freely gave

D

Love so beautiful

Unconditionally

Em

I had to stop, take a break, feeling good today

D

Everything's wonderful

You didn't have to do this for me

Em

But then I look and see

All of the suffering

D

Wanna do something

But something's got to start with me

C

I can't give it

Am

'til I live it

Am

Now that my eyes are opened

H+

Teach me how to love

Em G

Love God

Am B+...

Love People

Love my neighbour as myself

My brother

My sister

Everybody love somebody

Oh...oh...oh...

Love somebody

And now it's time to make a change

Revolution Day

Put it into action

And live compassionately

You take the black and the white

Red, Yellow, Brown

Life gets better
